

Purchasing Mobility Equipment: How to access NDIS Funding

As an NDIS Registered Provider of Assistive Technology, Power Mobility is dedicated to helping you get mobile. If you're not sure how to access NDIS funding for your mobility equipment, please follow the guide below.

What Assistive Technology is covered by the NDIS?

Some examples of Assistive Technology that you may be eligible to receive funding for includes:

- Powered mobility (eg. electric wheelchairs & scooters)
- Manual wheelchairs
- Seating & positioning for your wheelchair
- Wheelchair accessories including drive controls & powered assistance for manual chairs
- Hoists and beds.

Assistive Technology & your NDIS Plan

Make sure you include Assistive Technology in your NDIS Plan, detailing the products you need. To request a Service Provider Agreement to submit with your NDIS Plan, please contact us.

Your NDIS Plan – how to get started

Not sure where to start, or even if you're eligible for the NDIS? Simply follow the steps below.

STEP 1

Check your eligibility

Find out about your eligibility and access in your local area. Call **1800 800 110** or go to www.ndis.gov.au/ndis-access-checklist

STEP 2

Apply for the NDIS

Contact the NDIS and ask them to send you an Access Request form and an NDIS Pack. Call **1800 800 110** or email nationalaccessteam@ndis.gov.au

STEP 3

Prepare for your NDIS planning session

See what services and equipment you can get, so you know what to include in your plan. Call **1800 800 110** or go to www.ndis.gov.au/people-disability/what-can-i-get

STEP 4

Implement your plan

Make sure you include Assistive Technology in your NDIS Plan, detailing the products you need and/or an allocation for service and repairs. Contact us for a copy of our Service Provider Agreement to submit with your NDIS plan.

How much should I allow?

You need to allow a sufficient amount for the mobility equipment you will require for the next 12 months. This amount will vary from person to person depending on the equipment you need. If you're not sure, we can help you work it out. You can also nominate Power Mobility as your preferred equipment provider.

What if I need service, maintenance and repairs?

Our sister company, GS Electronics, is also an NDIS Registered Supplier, and can assist you with all your service, maintenance and repair needs through the NDIS. Please turn over for more details.

Where can I get help with my NDIS Plan?

If you're still not sure what to do, don't worry – you're not alone. The team at Power Mobility can help you with this process.

So if you'd like to have a chat about it, please give us a call on **07 3265 4663** or go to powermobility.com.au and click on our NDIS page for more information.

Alternatively, you can visit ndis.gov.au or call the NDIS on **1800 800 110** to find out more. But remember, the sooner you start planning, the better!

Service, Maintenance & Repairs: How to access NDIS Funding

Thank you for choosing GS Electronics to service and repair your mobility equipment. As you may know, the NDIS rolls out in Brisbane **from July 1, 2018**. As a valued client, we want to make sure that you receive continuity of service from us, so we have created this quick guide to help make the transition easier for you.

What is the NDIS?

The NDIS (National Disability Insurance Scheme) is a new way to help people under 65 with a disability get care and supports. Providing individual support to people living with a disability in Australia, the NDIS has been designed to ensure you have genuine choice and control, when it comes to deciding the products, services and support you receive. The NDIS is available in Brisbane City areas north and south of the Brisbane River from 1 July, 2018. This covers the local government area of Brisbane City.

Please note: Once the NDIS rolls out and you are approved under the scheme, MASS funding will no longer be available to you.

How do I include service, maintenance & repairs in my NDIS Plan?

As an NDIS Registered Provider, GS Electronics can continue to service and repair your mobility equipment, but you need to include an allowance for service, maintenance & repairs in your NDIS Plan under 'Assistive Technology'.

How much should I allow?

You need to allow a sufficient amount for service, maintenance and repairs for 12 months. This amount will vary from person to person depending on the equipment you have, but you may like to allow up to \$3,000 per year.* You can also nominate GS Electronics as your preferred service provider.

*This amount should be used as a guide only and may vary dependent upon the type of equipment you have, how often it needs to be serviced and the repairs required.

What if I need new equipment soon?

Our sister company, Power Mobility, is also an NDIS Registered Supplier, and can assist you with all your mobility equipment needs. Please turn over for more details.

Where can I get help with my NDIS Plan?

The team at GS Electronics can help you with this process and provide a Service Agreement to include in your NDIS Plan. Please call **07 3907 0569** or email us at service@gselectronics.com.au. Alternatively, you can call the NDIS on 1800 800 110.
